All mechanical components are guaranteed against failure for one year. If such a failure occurs for any reason other than abuse or misuse during this period, it will be repaired (or at our option replaced) free of charge FOB our factory. Blades will eventually wear or break, even in normal use. Their life cannot be guaranteed. Cosmetic damage is not covered under the warranty.

Chop saw design is fast and convenient

A simple clamp holds your work securely

Miter table adjusts easily a full $\pm 45^\circ$
